Improvements/Bug Fixes

Hubspot: Endpoint updated

Exact Synergy Enterprise: Fix for SQL Client connection

Orthomatic: Fixed issue with phone numbers stored as just trunk-number (i.e. 0614555887)

MS Dynamics 365: Update addin to work with 'Government'

Exact Online - Adjusted timings for refreshing tokens using API

Fix Act! addin for environments where custom field mapping is not being used

Support for Act! v24 (64-bit)

ODBC: Improve data preview in Configuration

in2crm: Caching option removed

Carerix: Support searching for internationally formatted national numbers

iConnect - For caching purposes, integration now only requests authorisation token at the beginning, and then only if the token fails will it re-request it

crmSeries: Improved error messages

Outlook: Update to Redemption v6.1 to support Microsoft Store edition of Outlook
