

# Partner CRM

## Release Notes

**Version:** 5.1.0.2796 Partner CRM

Release Date: 2022-02-11

## Improvement

Improved Windows Preview Window (for Clipboard dialing)

When ShowWindow is used from the API then the (config) window should always come to the front.

resolved issue is save clicked and outlook has not completed config initialisation

## Bug Fixes

Google Contacts cause pagination failure

Dial protocol fails ; experienced when user uses browser extensions to dial - Error in Logs shows  
"Program::SendRpcCommand system.UnauthorizedAccessException: Accesso al percorso negato. in  
System.IO.\_\_Error.WinIOError(Int32 errorCode, String maybeFullPath)"
