THE NEXT GENERATION OF COMPUTER TELEPHONY & CRM INTEGRATION

Go Integrator for Webex Calling is a unified communications client for the Cisco Webex Calling hosted telephony platform. It provides integration to contact-orientated business systems and CRM applications, offering a standard set of integration features with over 250 popular cross-vertical and vertical-specific applications.

This provides significant productivity gains, for example, know who is calling and quickly get their details on the screen or simply click on their contact number to automatically make your handset dial the number.
CRM integration features included with Go Integrator for Webex Calling:
Contact Searching

Contact Popping

Caller Preview

Click-to-dial

Activity Logging*

Add Contact / Account

CONTACT SEARCHING
Concurrently searches integrated CRMs and enables Contact Popping or Click-to-dial from the results.

CLICK-TO-DIAL
Makes it possible to dial directly from the CRM.

ADD CONTACT / ACCOUNT
Add a new record to the CRM directly from the client Caller Preview Window or Call History page.

CONTACT POPPING
Manually or automatically "pop" a customer record when a match is found for an active call.

ACTIVITY LOGGING
Manually or automatically create an activity record of a call received within the CRM and easily add further notes.

In addition to the CRM integration features, Go Integrator for Webex Calling has a range of powerful unified communication features including:

PRESENCE
See extension status of co-workers. From the dockable presence window a user can also make calls, transfer, or pick up co-worker calls.

MULTIPLE INTERFACES
The AppBar is an interactive bar that provides quick access to features. The Preview Window allows for call control during a call. The Toolbar provides a dockable UI with comprehensive set of features.
